Brown

...Announcement...

• • •

IN PRESENTING to you our first annual catalogue covering a *few* articles we manufacture, we would respectfully call your attention to our unsurpassed facilities for turning out the finest class of work in our line in the Northwest. We employ nothing but the most thorough mechanics, who have made a life study of this line, and we can assure you that any order placed with us will receive our most prompt and careful attention.

The articles enumerated herein are only a few of the many we manufacture, and should you not find anything to suit your fancy we would be pleased to furnish you with other designs and prices on application.

We furnish metal in oxidized silver, antique or old copper, oxidized brass, etc.

We use the Schuldt rustless process for producing dead black finish.

Since going to press we have just obtained a patent on our Schuldt Window Guard, which are especially adapted for asylums and hospitals. We have just placed over five hundred of these guards in St. Joseph's Hospital at Dubuque, Iowa, and Messrs. Buechner & Jacobsen, architects, of St. Paul, have adopted same for the new asylums at Richland Centre, Wis., and Hudson, Wis., for which they are now making plans.

We would respectfully call the attention of architects to above, and would be pleased to furnish drawings on application.

THE CAPITAL CITY ORNAMENTAL IRON, WIRE AND BRASS WORKS.
